

Wisconsin Historical Marker Application Form

This application is required to obtain approval for official State of Wisconsin historical markers. The Wisconsin Historical Markers Program is administered by the Wisconsin Historical Society's Division of Historic Preservation and Public History.

State Register of Historic Places plaques no longer require Wisconsin Historical Society approval. If your home is on the State Register, order State Register plaques directly from SEWAH Studios at 1-888-55-SEWAH.

This application form must be filled out completely.

Incomplete or ineligible marker applications will be returned to the applicant within **30 days** of receipt by the Society.

Please allow sufficient time for your order.

The marker text requires approval of Wisconsin Historical Society staff. Because there is often a backlog of pending applications and staff is limited, please allow up to 6 months for our staff to review your application. Once approved, the Society will order your marker from SEWAH Studios, where the marker is cast and shipped within 4-6 weeks. We advise you not to schedule a marker dedication ceremony until the marker order has been submitted to SEWAH Studios.

The applicant is responsible for:

- Providing all research documentation & supporting materials for this application
- funding the historical marker
- maintaining the historical marker

Do not submit payment until invoiced.

All historical markers are manufactured by SEWAH Studios in Marietta, Ohio. Once this application has been approved, the Society will place the order for manufacture of the historical marker. SEWAH will invoice the applicant directly once the application process is complete. The marker will be delivered directly to the applicant.

Criteria for Historical Marker Topics

Wisconsin historical markers identify, commemorate and honor the important people, places, and events that have contributed to the state's rich heritage. The Wisconsin Historical Markers Program is a vital education tool, informing people about the most significant aspects of Wisconsin's past.

Markers should describe one of the following aspects of Wisconsin's history: history, architecture, culture, archaeology, ethnic associations, geology, natural history, or legends. If your narrative text is about a person in history, we encourage you to include the person's birth and death dates, a chronology of the important events from the person's life and the person's influence or significant contribution to the national, state or local community. If your narrative text is about an event in history, we encourage you to include the time, date and place of the event, any people or groups associated with event, information on how the event developed, and the event's influence or significant contribution to the national, state or local community.

While developing your narrative text, we encourage you to document your facts and dates with footnotes. You will be required to develop an annotated bibliography and attach photocopies of your primary and secondary research resources with this application. Avoid words like "first," "oldest," "unique," or "only" unless there is irrefutable documentation. The name of the current owner of the property or the name of any living person cannot be listed in the narrative text. The Society reserves the right to reject a marker application that it deems offensive, either to general good taste or to a specific group of people.

The Society will consider the approval of marker applications for state and local sites if the applications meet any of the following criteria:

- The property is listed in the State or National Register of Historic Places
- The site is associated with the events that have made a significant contribution to the broad patterns of history
- The site is associated with the lives of persons no longer living whom have made significant contributions to the broad patterns of history and culture
- The site embodies the distinctive characteristics of a type, style, period or method of construction or architecture, or representative of the work of a master, or that possess high artistic value
- The site yields, or likely to yield, information important in prehistory or history
- The site is associated with ethnic groups who have made distinctive and significant contribution to history
- The site embodies the characteristics of the State representing significant aspects of the physical or natural history of the earth and its life
- The site is representative of popular stories or myths that, although not verifiable, are significant to history and culture

Please type or print clearly.
