#### 5. Why are the Society's state budget priorities important for your community?

Because we are among the nation's oldest, largest, and most active state historical societies with world-class collections, the Society is a trusted source of historical information. We are proud to serve a critical role as the preservers and transmitters of cultural heritage from generation to generation.

The Society makes major contributions to Wisconsin's economic, educational and cultural health through innovative initiatives and programs. Our educational programs inform and entertain adults and challenge young people to think critically about their place in history.

Historic preservation improves Wisconsin's quality of life and reinvigorates neighborhoods. Our historic sites, museum, collections, archives, and programs promote tourism and provide for comprehensive study, appreciation, and enjoyment of North American history.

#### 6. Closing comments

The Society wants Wisconsinites to find themselves as part of the state's story. By immersing the public in the lives of Wisconsin people past and present, we hope to invite people to participate in conversations that connect the past to the most vital issues of the present and future.

Example: "I support the Society and am proud to be a part of our great state's history. By immersing the public in the lives of the Wisconsin people, past and present, our State Historical Society and (my organization/I personally) hope to spark recognition and curiosity in our history, spurring conversations that connect the past to the most vital issues of the present and future."

Thank you for your time. Do you have any questions?
