

History Day Exhibit Board ORDER FORM

Unlike the typical science fair boards that can be purchased at office supply stores, these exhibit boards have proportional panels and more height. This creates a more balanced display of images, sources and text.

The double-thick, corrugated boards are **48 inches tall** and 72 inches wide. When displayed there are **23.5 inch wide side panels** and a **25 inch wide center panel**. Optional title panels extend to the maximum 40 inch width allowed by History Day rules and are 10 inches tall.

In order to be shipped, boards and title panels must be ordered in increments of 10. **Orders for nine or fewer boards or title panels may be made, but the purchaser will be responsible for picking them up at the Minnesota History Center in St. Paul.**

The price for the 10 packs of boards and title panels includes all shipping and handling fees!
