

WISCONSIN OFFICIAL HISTORICAL MARKERS

The Wisconsin State Historical Markers Program is administered by the Local History-Field Services section of the Wisconsin Historical Society's Office of Programs & Outreach. If you find that a marker has been moved or is missing or damaged, contact [Fitzie Heimdahl](#). Please provide the title of the marker and its current location.

Each listing below includes the official marker number, the marker's official name and location, and a map index code that corresponds to Wisconsin's Official State Highway Map. You may download or request this year's Official State Highway Map from the [Wisconsin Department of Transportation website](#).

Markers are generally listed chronologically by the date erected. In cases where marker numbers do not follow sequentially, a marker has been removed. This may occur for a variety of reasons, including that the wording of the marker became outdated or that the historic property being described was moved or demolished.
