State Historic Preservation Office
Office of the State Archaeologist
List of Archaeological Consultants
May 2022

This list contains individuals or organizations that have indicated interest in conducting archaeological research in Wisconsin on a contractual basis. They have certified that they are qualified archaeologists under the Secretary of Interior’s professional qualification standards (36 CFR 61, Appendix A.).

This list is not inclusive. There may be other qualified individuals or organizations that have not contacted us. Contractors should contact the Register of Professional Archaeologists as well as Historic Preservation offices in neighboring states for additional listings.

How the list is organized
Company names are listed alphabetically. After each listing, areas of expertise are noted (prehistoric and/or historic archaeology).

Representation Conditions
This list is provided as a public service. It does not constitute an endorsement of any, or all, of these individuals or institutions. Nor is it a guarantee of satisfactory work. Standard business practices should be used in contracting for services with these individuals and institutions. Credentials and work history should be checked. Former clients should be consulted. The State Historic Preservation Office does not remove names from this list unless requested by the individual or institution concerned.

Federally permitted or assisted projects
- Federal or federally permitted or assisted projects must be conducted by a qualified archaeologist as defined in "Archeology and Historic Preservation: Secretary of the Interior’s Standards and Guidelines."
- When reviewing archaeological projects, the Society’s State Historic Preservation Office applies the "Wisconsin Archaeological Survey Guidelines for Public Archaeology."
- To conduct archaeological research on public lands owned by the state and its political subdivisions a permit from the State Archaeologist is required.
- To conduct archaeological research on federal lands, a federal (ARPA) permit is needed.
- All artifacts and information collected during the course of federal or federally-assisted projects must be curated in accordance with federal regulation 36 CFR Part 79, which is entitled “Curation of Federally-owned and Administered Archeological Collections.”

Wisconsin’s State Historic Preservation Office staff offers an archaeological consultants workshop each year. In order to remain on this list, you must attend the workshop once every two years.
