Application Instructions For STATE Income-Producing Tax Credits

This guidance applies to owners applying ONLY for the state tax credit.

The State of Wisconsin has a 20% tax credit up to $3.5 million per parcel available to owners who rehabilitate their certified historic structures. The building’s use must be income producing or a 501c3. This program is administered by the State Historic Preservation Office (SHPO) located within the Wisconsin Historical Society (WHS). To claim the state credit, the owner must receive approval from SHPO prior to starting work. In order to receive tax credits, approval is also required by the Wisconsin Economic Development Corporation (WEDC).

BEFORE APPLYING
1. The proposed project must equal at least $50,000.

2. Consult an accountant, tax attorney, and/or Department of Revenue (DOR) to determine whether these incentives would be applicable to the owner’s financial situation.

3. Contact a SHPO architect to discuss the proposed project. (Refer to the map at the end of this document to find your architect.) The architect can confirm the building’s status on the National Register and discuss preliminary details of the project to determine whether it will meet The Secretary of the Interior’s Standards for Rehabilitation.

HOW TO APPLY
All application forms must be completed with original owner signature(s). Submit one copy of all forms, photographs, drawings and other materials to SHPO at Wisconsin Historical Society, 816 State Street, Madison WI 53706. The application parts may be sent separately or together, but if they are sent separately, Part 1 must precede Part 2. In order to complete the application process for the State tax credits, WEDC will send the owner appropriate forms to be completed after the Part 2 has been approved by SHPO.

www.wisconsinhistory.org
PHOTOGRAPHY
Submit detailed photos of the building along with the Part 1 and/or Part 2 applications. Photos are required to be 4” x 6” (color and commercially processed on photo paper). All photos must be labeled on the back with the historic property name, date and photo number keyed to a floor plan. At a minimum the following photographs are required:
   a. Several photos of the site and setting
   b. At least one photo of each building elevation
   c. Detailed (close-up) photos of specific architectural features affected by the proposed rehabilitation
   d. Photos of interior spaces/rooms

THE PART 1 APPLICATION
Submit the Part 1 Application, the required photographs and photo key and one the historic district map with the project building(s) highlighted.

The Part 1 is used to request certification that a building contributes to the significance of a registered historic district. Or The Part 1 is used to determine that a building is eligible for listing in the National Register of Historic Places. The Part 1 is not needed if the property is a single building currently listed in the National Register of Historic Places. If the building is not yet listed, attach a draft National Register nomination to the Part 1 application.

THE PART 2 APPLICATION
Submit the Part 2 Application, the required photographs (if not submitted with the Part 1) and photo key, and any/all drawings, and manufacturer’s information. If the drawings are larger than 15” x 21” submit half size drawing sets.

The Part 2 is used to describe all proposed work to the building and site as well as any new building addition. The work items must be broken out and described individually, explaining the existing condition and proposed treatment. Examples of these work items include but are not limited to: site work, foundation, roof, exterior masonry, windows, exterior doors, interior finishes, mechanical, electrical, and plumbing. Reference the photograph or drawing numbers that illustrate the feature in your description. All projects are evaluated using the Secretary of the Interior’s Standards for Rehabilitation. If the owner would like to complete the work over five years, submit a proposed project schedule listing what work would take place in each year.

Expenditures associated with the exterior or the interior of certified historic structures (with the exception of moveable equipment) as well as architect/engineering fees are eligible expenses. The costs of site work, acquisition, and construction of new additions are not eligible for the credits.

COMMON REASONS FOR RETURNS

1. Lack of photographic documentation.
   In order to fully review the proposed work, the existing building conditions must be documented. Photos of the entire building are required, even if work is not proposed in a particular area. Submit photos of all exterior elevations and of all interior spaces.

2. Lack of adequate plans.
   Depending on the size and scope of work, construction drawings may be required. For example, when interior work involves inserting new or removing original walls, submit existing and propose floor plans. If any interior finishes are proposed to change, submit existing and proposed finish schedules. If original windows are proposed to be replaced, submit existing and proposed dimensioned window details.

www.wisconsinhistory.org
3. **Lack of required signatures.**
Applications must have original signatures of all property owners. All names, addresses, and taxpayer identification numbers of those owners must be indicated on the application. A general partner who is in the process of soliciting partners at the time of application should include a statement that the names of the remaining partners are unknown, but that they will be submitted at a later date.

4. **Failure to describe significant aspects of a project.**
SHPO must review all parts of a project and requires applicants to address all aspects of project work including interior work, new construction, demolition of nearby structures, and installation of new mechanical and electrical systems. To ensure compliance confirm the entire project is described within the Part 2 application.

**REVIEW PROCESS**
SHPO architects review the application materials per the Secretary of the Interior’s Standards for Rehabilitation. If all necessary materials are included with the applications, the owner should receive a decision within 30 days. The owner must complete the required WEDC forms in order to claim the State Tax Credit.

**CARRYING OUT THE WORK**
Once the Part 2 application has been approved by SHPO, work may begin. It is possible to amend the project by submitting the amendment form (along with necessary photos and drawings) to SHPO. The amendment will be reviewed and the signed amendment form will be mailed back to the owner along with any assigned conditions.

If the property received a preliminary determination of significance through the Part 1 application process, (in other words, if it is not individually listed in the National Register or certified as contributing to a National Register district), complete a National Register nomination for the property. National Register listing is a lengthy process, so we recommend beginning this work immediately upon Part 1 approval as tax credits cannot be claimed until the building is listed.
THE PART 3 APPLICATION
Submit the Part 3 Application within the calendar year the project is completed and the building is placed in service. Along with the Part 3, submit 4” x 6” color photos labeled on the back with the historic property name, date and photo number (keyed to a floor plan).

CLAIMING THE CREDITS
Once SHPO approves the project, the signed Part 3 is submitted with taxes to claim the credit (if the building is listed). The owner may not claim the credits until the building is listed. The owner must claim 20% of the tax credit per year for 5 years. If within five years, of the building being placed into service, it is sold or altered in a way that diminishes its historic character, the tax credit must be repaid to the DOR. Repayment is prorated over the five-year period after the building is placed in service.

FOR FURTHER INFORMATION…
COMPLETING THE PART 1
For advice about completing the Part 1 certification application, call Joe DeRose at 608/264-6512 or joe.deros@wisconsinhistory.org.

HIRING A CONSULTANT
While it is not required, many applicants will hire professional consultants to complete the Part 1 application and/or complete the National Register Nomination. If you wish to hire a consultant: www.wisconsinhistory.org/hp/consultantlist.asp

NATIONAL REGISTER QUESTIONS
For information on listing a building in the National Register of Historic Places contact Ian Gort at 608/264-6502 or ian.gort@wisconsinhistory.org.

TAX QUESTIONS
For advice about your tax circumstances, you should contact tax specialists, such as tax lawyers or accountants.
