VANDERD CKEN'S MESSAGE HOME.

Concluded.

The sound of talking soon ceased, for many returned to their births, and we heard nothing but the clanking of the repes upon the masts, and the bursting of the nillows a-heap, as the vessel successirely took the seas.

But after a considerable interval of darkness, gleams of lightning began to re-appear. Tom Willis suddenly called out, Vanderdecken again! Vanderdecken. again! I see them letting down a boat."

All who were on deck ran to the bows. The next flash of lightning shone far and wide over the raging sea, and shewed us not only the Flying Dutchman at a distance, but also a boat coming from her with four men. The hoat was within two cables' length of our ship's side.

The man who first saw her ran to the Captalu, and asked whether they should The Captain walking hail her or not about in great agitation, made no reply .-The first Mate cried, "Who's going to heare a rope to that boat?" The men looked at each other without offering to do any thing. The beat had come very near the Blaus, which Tom Willis called out, What do you want? or what devil has blown you here in such weather." A piercing voice from the boat repli d in English, "We want to speak with your Captain." The Captain 'ook no notice of this, and Vanderdeeken's boat having comalongside, one of the men came upon deck and appeared like a tatigued and weatherbeaten scaman, holding some letters in his hand

The strainger replied, "We have long been kept here by foul weather and Vanderdeeken wishes to send these letters to his friends in Europe."

Our Captain now came forward, and said as firmly as he could, "I wish Vanderdeeken would put his letters on board any other vessel rather than mine."

The stranger replied, "We have tried many a ship, but most of them refuse our letters."

Upon which Tom Willis muttered, "It will be best for us if we do the same, for they say there is sometimes a sinking

The Chaplain asked the stranger, "How long have you been at sea."

He replied, "We have lost our count, for our almanack was blown overboard .-Our ship, you see, is there still so why should you ask how long we have been at sea; for Vanderdecken only wishes to write home and comfort his friends."

To which the Chaplain replied, " Your letters. I fear, would be of no use in Amsterdam even if they were delivered, for the persons to whom they are addressed are probably no longer to be found there, except under very ancient green turf in the church-vard."

We have been long droing about here, but country nor relations cannot be so easily forgotten. There is not a rain drop in the air but feels itself kindred to all the rest, and they fall back into the ser to meet with each other again. How then can kindred blood be made to torget where it can be from! Even our bodies are part of the ground of Holland; and Vander-decken says if he once were come to Amberdan, he would rather be changed into a stone post, well fixed this the ground, a stone post, well fixed this the ground, if that were to die elsecan kindred blood be made to forget where where. But in the mean time, we only ask you to take these letters.".

The Chaplain, looking at him with as tonishment, said, "this is the insanity of uaural affection, which rebels against all measures of time and distance,"

STEAM SCOURING & CLOTHES DRESSING EMPORIUM: A WORD TO THE WISE IS SUFFICIENT.

THE Subscriber returns his sincere thanks to the citizens of New-York, for the kind and liberal patronage which he has received in the line of his profession, and solicits a continutance of their favours, as he again renews to them the assurance that he will remain true to his motto.

M. Quon confesses that there has been, and still is great cause for the public to doubt who are and who are not good workmen; and the reason is this-every one pretends to clean and dress clothes differently, and in a peculiar manner, known only to themselves. Now, if this is true, there are no less than twenty different new inventions in the art of Clothes Cleaning. But as to the truth of this assertion; I shall not undertake to decide, either pro or con, but will leave it to the judgment of an enlightened and intelligent community.

M. Quon also confesses that be has not received, either in theory or theoretically, any of the new inventions which appear to have been so liverally dealt out from the mint of invenciates; and therefore, in spite of his blushes for the want of the merit of a new inventor, is compelled to offer his services in the plain OLD WAY, which has been, and must be, pursued by all good workmen, whatever they may say to the contrary notwithstanding. DARING ROBBERY:

On the 19th inst. Mr. Horace Terry, Oscida county, was found horribly mangled, and almost insensible; at the foot of a precipice 15 Peekskill. Means were taken to rerive him which proved successful. He had left New-Tork the evening previous in a steam boat, and was landed at Colwell's (opp site to Peckskill) about 12 o'clock st night; he had intended to stay there until morning three men were also landed from the boat with him, who induced him to cross the river with them in a boat. After they had crossed the river two of the men left Mr. Terry and the other man, but they had not gone far before they all came together. Mr. T. was then struck with a club, which brought him to the ground. They then seized and dragged him towards a steep precipice Terry begged that they would spare his life they were regardless of his prayers, and one of the villans exclaimed, "d-n him, kill him! They then threw himover the precipice, which is said to be one hundred feet high, at the botfom of which is a pond, into which they no doubt supposed he would fall. Near this pond be was found in the morning. Mr. Terry was robbed of \$1400, in bank notes. He had been to New-York with a drove of Cattle, and was followed from that place by the ruffians, they knowing he had been receiving money.

It gives me great pleasure to state, that all three of the robbers have been apprehended. Two of them were taken near the court house, in Putnam county; the other one a short distance north of Danbury, Conn. They were all examined and confined in the Putnan county jail; they were identified by Mr Terry, as the persons who robbed him. Only about \$40 was found on them, \$10 of which was recognized by a particular mark, to belong to Mr. Terry. Notwillstanding his severe wounds, Mr. T is fast regaining his health.

The Choctaw nation of Indians have establ lished a Seminary of Instruction for the benefi of a portion of their children, at a place called the Great Crossings, in the state of Kentucky. This institution is subject to the regulations of the United S. War Department, and is under the immediate direction of the Baptist Board of Missions.

In imitation of this landable example, and stimulated by the prosperous results which dy begun to appear among their ethres, the Creeks and the Pottawattamies bave taken similar steps, and appro attamics have taken similar steps, and appropriated a certain portion of their means for the diffusion of learning and the arts of civilization among their rising progent.
