For the Freedom's Journal.

Mr. Editor,—With the exception of the abolitionists, we are all acquainted, but how can we, with any appearance of justice, appeal to them? We have been for years engaged in the cause of freedom, and have always been active in its behalf. We have been for years engaged in the cause of freedom, and have always been active in its behalf.

Your very obedient,

A. ENQUIRER.

Boston, August 24, 1855.

TO THE EDITOR OF THE FREEDOM'S JOURNAL.

The subject of the New York Emancipation Society, which has been so energetically discussed of late, is one which deserves the attention of all mankind. The institution of slavery is a blot on the moral and political character of the United States, and it is time that it should be abolished. The more we know about it, the more we are convinced that it is a disgrace to our nation, and a stumbling-block in our path to freedom.

The New York Emancipation Society has been founded for the purpose of promoting the cause of freedom, and they have already done much to advance it. They have published a series of tracts, and have given a great deal of energy to their work. They are doing good work, and we hope that they will continue to do so.

The New York Emancipation Society is not the only society of its kind in this country. There are many others, and they are all working towards the same end. They are all doing good work, and we hope that they will continue to do so.

We believe that the time is not far distant when slavery will be abolished throughout the United States. We hope that it may come before it is too late, and that the people of this country will be able to look back upon this period as a time when they did what was right, and what was necessary, in order to maintain the greatness and glory of our nation.

Yours very truly,

A. ENQUIRER.

On the Log Cabin Museum.

Far above the world we rest,

To see it, we must rise and go:

For others to explore

The wonders of the world, we must rise above.

The Log Cabin Museum is a remarkable place, a window into the past. It is a place where we can see how people lived in the past, and how they built their homes. It is a place where we can learn about the history of our country, and about the people who lived here before us. The museum is located in the heart of the city, and it is open every day of the week. It is a place where we can all come together, and learn from one another.

IN THE COUNTRY.

The Log Cabin Museum is a wonderful place to visit, and I highly recommend it. It is a place where we can all learn something new, and it is a place where we can all have fun. I hope to see you there soon.

FREEDOM'S JOURNAL.

VOL. 13.

NEW YORK, FRIDAY, FEBRUARY 17, 1837.

EDWARD BAINES.

Brooklyn, April 25, 1836.

BURNING OF MOSCOW.

Kanpotor, March 12.

The fires that left the village where it had encamped at an early hour, and which spread rapidly over a portion of Jay-St., were extinguished, but not until the house of Dr. Dryden, near the corner of Jay-St. and Washington-Sq., had been destroyed.

The house was built by Dr. Dryden, a medical missionary, and was occupied by him until his death, in 1836. It was a large, handsome building, containing many valuable manuscripts and other books.

The fire was started by a spark from a passing carriage, but the cause of the accident was never discovered.

The losses sustained by the owners of the house and the village were enormous, and the insurance companies were called upon to pay large sums.

The village was in a state of great excitement, and the inhabitants were much disturbed by the news of the fire.

The government of the United States was notified of the disaster, and offered its assistance in case of need.

The victims of the fire were deeply plunged in sorrow, and the sympathy of the whole country went out to them.

The fire was a great blow to the village, and it was not long before it was decided to build another house in its place.

This new house was to be a larger and more elegant building, and it was to be erected on the same site as the old house.

The work was begun at once, and the village was soon in a much better state than before the fire.
