"FREEDOM IS THE BRILLIANT GIFT OF HEAVEN."

We invite the attention of our readers to the recent events in this week's issue. Although the freedom of the human race has not yet been achieved, yet the progress of the cause is encouraging, and the reason is obvious, namely, that TWO MILLIONS OF HUMAN BEINGS are free in the United States of America. This, in this Republic, has been a fact which is now an accomplished one, and to this fact we all owe our respect and gratitude.

In the District of Columbia, the newly formed capital of the United States, the freedom of the negro has been declared. The resolution, which passed the House of Representatives, was introduced by Mr. Sumner, of Massachusetts, and read a second time by Mr. Seward, of New York.

The measure was referred to a committee, and on Thursday, the 16th instant, the committee reported favorably on it. The measure was then taken up and passed by the House, and the bill was then sent to the Senate.

In the Senate, the bill was referred to a committee, and on Friday, the 17th instant, the committee reported favorably on it. The measure was then taken up and passed by the Senate, and the bill was then sent to the President.

The President signed the bill, and it became a law, on the 17th instant, at 12 o'clock, noon.

The measures thus taken demonstrate that the Congress of the United States is determined to remove the ignominy of slavery from the land of the free, and to establish freedom for all its citizens.
