About the National History Day Program

The Wisconsin Historical Society is proud to sponsor the National History Day program in Wisconsin. National History Day is an exciting academic enrichment program for students in grades 6-12. History Day was created by the faculty at Case Western University in Cleveland, Ohio in 1974 and has grown into a national program with over a half-million students participating annually. The goal of National History Day is to promote the study of history in schools by offering a creative forum in which students can express their scholarship. National History Day in Wisconsin strives to create a higher degree of appreciation for the value of historical thought in the students, educators, and community members who participate. Over 10,000 Wisconsin students worked with the program this year.

The spirit of History Day is based upon the encouragement of achievement and recognition of excellence. It is the goal of the program to empower students with research and critical thinking skills and outlets for creative expression which will enhance their academic abilities in all areas of study.

National Finalists and Event Results

Students who are selected as national finalists are eligible to attend the NHD national contest. National finalists from across the nation will meet at the University of Maryland—College Park, just outside of Washington, D.C., from June 12—16. In the rare event that a national finalist entry is unable to attend the national contest, honorable mention entries will be offered the opportunity in the order of their ranking.

National finalists, their teachers and parents are asked to attend the national finalist meeting, which will take place immediately following the awards ceremony from approximately 7:00-7:45 PM. This meeting will cover important logistical information about the contest.

Full results will be posted at www.wisconsinhistory.org/teachers/historyday on **Monday, April 25** by 12:00pm.
